

About Us

Piinkbox token will be the preferred method of payment for our adult dating and social website. Payments to creators and memberships will be made in \$PiinkBox. Payments can also be made in all other currencies and will be converted and the team will purchase \$PiinkBox with these funds. This will help maintain constant buy pressure on the chart. The presale of the token is to raise funds to pay for global marketing of PiinkBox.com. This will be across all social platforms with heavy marketing techniques to engage with people across the globe to join Piinkbox.com

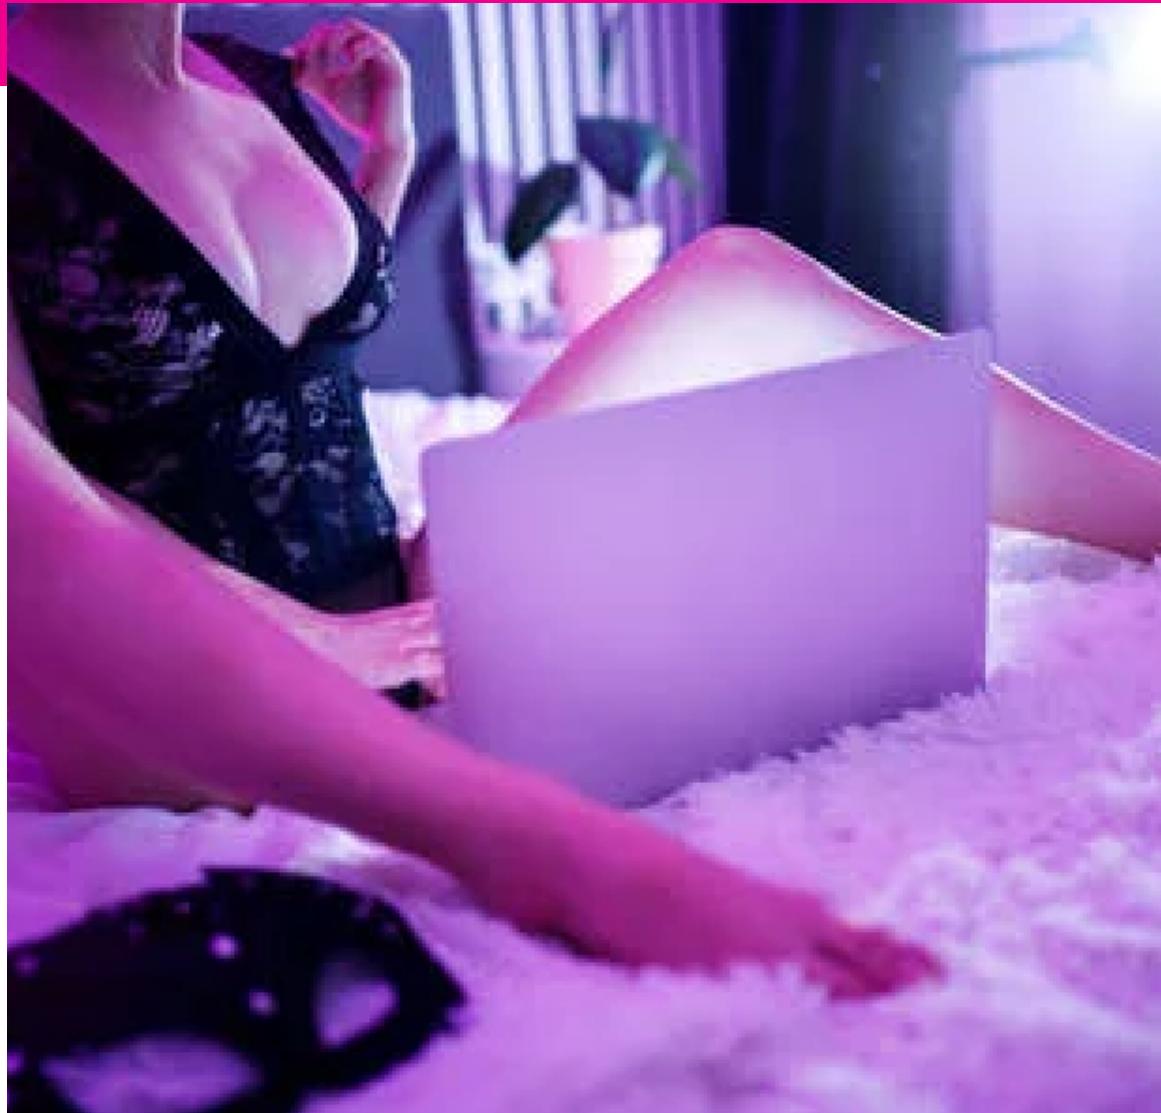

The token will also be hyper deflationary with automatic burns on every transaction and manual burns from the team using money collected in the treasury.

Connecting adults across the world

Taxes of only 6% with the majority going towards giving the project longevity and stability

Revenue

Project revenue...There will firstly be transaction taxes on the token which will be 6%. From this 6% 1.5% will go to marketing which will be used to drive the project and give ongoing funds for long term marketing strategies to be implemented.

The revenue from the creator platform will be as follows...

Creators being paid 94% means the remaining 6% will work as follows. From the 6% 4% will go into Pink token chart. The 4% will generate 1.5% for marketing via the transaction tax and 1.5% into the treasury funds.

The remaining 2% will be for marketing of the platform which will be carried out by our hired marketing firm.

1% of all creator revenue will be distributed to holders of PiinkBox tokens in proportion to their holding % of tokens v's funds collected.

This means every payment on the platform generates cash flow for the chart of Pink and also marketing revenue for the token and the creator platform.

USP's

The opportunity for anonymous payments via crypto along with fiat payments bridges the crypto industry with content creation in a simple attractive way. With the profitability being geared towards supporting the token and holders to keep an ever growing cycle in place that feeds into the platform and token.

- The benefits of the platform:
- Easy email signup process
- Alternative anonymous login using web3 connect
- Payments via visa/mastercard etc
- Alternative payments via crypto funds
- Easy to use platform
- Verification on creator profiles so fans know they are legitimate
- Easy set up of profiles and feeds
- Creators can set their own fees for content
- 94% starting payout ratio for creators
- 2% royalties on all revenue from referred accounts

Our Process

Main objectives of the team for the future

1
Fairlaunch presale on
pinksale.finance to raise funds.
Allocated funds will be used for a
huge global marketing campaign
